BRIEF

Front-End Developer with 3 years of experience, specialized in JavaScript and an expert in React with TypeScript, assisting in the efficient implementation of solutions. Additionally, I have actively contributed to the Back-End with NodeJS, proactively collaborating with the team to achieve goals and objectives. I am currently seeking a new opportunity where I can put all my experience and learning into practice, bringing great results to the company and being able to grow together with my team. I have immediate availability, for remote or hybrid work. I am motivated and ready to embark on this new journey.

WORK EXPERIENCES

Full Stack Developer

Prudente Gestão de Pagamentos | 07/2021 ~ 07/2023

Development and maintenance of new features for the company's internal product, using React + TypeScript as the main frameworks on the Front-end and NodeJS on the Back-end, with PostgreSQL as the database. I also worked on the integration of third-party services such as Celcoin and Bankly, contributing to the creation of business rules for the product.

Front-End and Mobile Developer

Intelivino | 02/2022 ~ 07/2022

I worked on the development of tasks aimed at optimizing the user experience in using the product. Refactoring web pages and also mobile screens, implementing new features and facilitating purchase access flows.

Front-End Developer

Parcelamos Tudo | 09/2023 ~ 05/2024

Creation of pages for new products and expansion of administration panels. Maintenance of the company's product by creating tests with Cypress and bug fixing. Development of a self-service system interface (Totem), with internationalization, using TypeScript, JavaScript, React, and Electron technologies.
